

# MURPHREE VENTURE PARTNERS

## TESTIMONIAL

HOUSTON  
AUSTIN  
BIRMINGHAM

*“MVP does what MVP says. In a world increasingly filled with spin and hype, MVP’s word is their bond. The experience of working with MVP is entirely pleasurable. One would be hard pressed to find a more professional, polished and friendly organization anywhere. MVP brings vision and resolve to the boardroom. MVP adds both the creativity to see the possible as well as the will to produce the actual.”*

**James Brown**

*“There are three specific areas that make MVP excellent at what they do:*

- 1. They are extremely thorough in their due diligence of prospective investments;*
- 2. While they are hands-on in the management of the investment, they do not micro-manage it; and*
- 3. The annual LP meeting is much more than a fifteen minute presentation, it’s an opportunity to learn and connect with other business leaders in the industry.”*

**Michael J. Cornell**

*“MVP makes its choices carefully and patiently, in concert with a strong syndicate of partner investors — an approach which ultimately rewards its investors and its companies with better performance. The first time we talked to MVP, they decided we weren’t ready for an investment. They explained what we needed to do to reach that point, and we listened. We returned almost two years later when we were ready. As a result, Smart Furniture was a better company, and MVP had a better investment.”*

**Stephen Culp**

*“Dennis Murphree is a true professional in every sense and will always bend over backwards to help, assist, and guide the management team in helping them make the absolutely correct decisions leading to quality growth and returns for the shareholders. MVP helped Medserve, Inc. achieve an extremely successful exit in a relatively short time period — bringing superior returns not only to the MVP fund participants, but many other investors as well.”*

**Mike Fields**

*“MVP is a team player who looks out for the welfare and needs of every shareholder involved. MVP is always there when you need them. If they can’t answer when you call, rest assured they will return your call within a few minutes ready to help with whatever the problem might be. MVP operates with integrity. They say what they mean and mean what they say. If MVP tells you they will help, believe me, they will. MVP has earned my trust.”*

**Shelby LeCroix**

*“MVP brought more than just capital to Unico. The firm’s vast experience, business acumen and professional network brought true value to their active role on our board. Their contributions to our meetings were always substantive. MVP was always very supportive of management and would help our team see opportunities and issues before we were aware of them.”*

**James C. Robertson**
